Attachment B. RBM consultant's resume

1. INTRODUCTION

RBM Consulting Group, Inc. (“RBM”) is a specialty consulting company providing services in the Geotechnical and Foundations Engineering, and Oil and Gas. RBM creates strong partnership with industry expert consultants to form strong teams unique to specific project requirements. All RBM consultants are recognized industry leaders in their field of expertise and most of them are distinguished scholars collaborating with universities around the world. RBM brings in expert consultants on an as-needed basis to provide consulting expertise to best-serve specific project need and requirement.

In the early 2004, Rozbeh B. Moghaddam and Prof. Carlos Yzquierdo started a company, YZMO Geotecnia, S.C. (“YZMO”), with headquarters in Mexico City to provide Geotechnical Engineering design services for commercial, residential, and transportation projects in Mexico. In 2006, YZMO expanded its operations to the Central and South America. Due to Prof. Yzquierdo’s prior experience with the design and construction of the Metro system in Mexico City, in 2007, YZMO was selected as the External Consultant to the Mexico City transportation authorities during the design and construction of the Mexico City’s Metro Liner 12. Unfortunately, with the departure of Prof. Yzquierdo from YZMO, due to health complications, YZMO’s operations were narrowed to specialized consulting in foundation remediations for structures under excessive movement due to Mexico City’s subsidence. Rozbeh continued providing support to clients in Mexico City on a part-time basis while he worked on his Doctoral degree at the Texas Tech University focusing on the Load and Resistance Factor design of deep foundations in Texas. In 2016, upon completion of his Doctoral studies, Rozbeh joined GRL Engineers, Inc. (“GRL”) supporting GRL’s Research and Development team.

In 2019, RBM was formed in San Antonio, TX to continue YZMO’s legacy and provide consulting services in the United States, and supporting former clients in Mexico, Central and South America. A new segment was added to RBM to provide expert consulting in the Oil and Gas industry. Currently RBM provides consulting services in the Geotechnical Engineering industry as well as the Oil and Gas industry.

RBM follows its **T.E.A.M.** concept with strong focus on *Time, Expertise, Applicability, and Management*. At RBM, we work as a team and we follow the T.E.A.M to **engineer constructible solutions!**

2. T.E.A.M. CONCEPT

TIME. The RBM team understands the time importance and its impact on project schedule. We believe that time-efficiency can be achieved by effective communication among the project stakeholders engaged in the design, construction, and testing. Therefore, we are committed to sharing our experiences to help prevent project delays.

EXPERTISE. RBM is committed to provide superior expert consulting by working with and partnering with, when necessary, industry professionals and other disciplines to create a collaborative practice that widens the range of expertise available for our clients.

APPLICABILITY. With active presence at industry technical committees and through collaboration with universities, RBM supports research within the Geotechnical and Foundation engineering industry. This involvement helps RBM identify the latest advancements and their applicability within our industry.

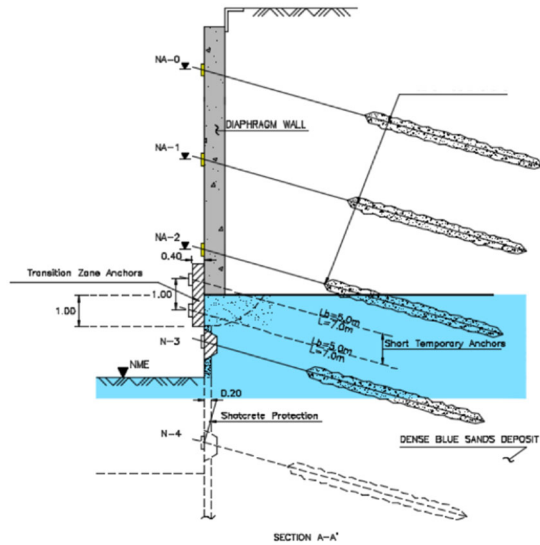

MANAGEMENT. RBM provides strong management to bond Time, Expertise, and Applicability. We strongly follow a collaborative and delegating management model. Our managers prefer to observe and assist rather than control and dictate. We believe everyone on our team can contribute to our success.

The result of the T.E.A.M. concept has proven valid and efficient outcomes throughout each project and administrative function (written reports, technical memorandums, personal communications) so that RBM can best support our clients' requests.

3. SERVICES

RBM consultants use all available means and methods to aid our clients with their complex challenges and provide a safe, constructible, practical, and efficient solution to our clients' project needs. RBM engineering consultants possess the ability of providing practical solutions to less complex situations based on results from an engineering hand calculation sheet as well as advanced software skills to tackle more-complex situations with the use of numerical models and Finite Element Analysis.

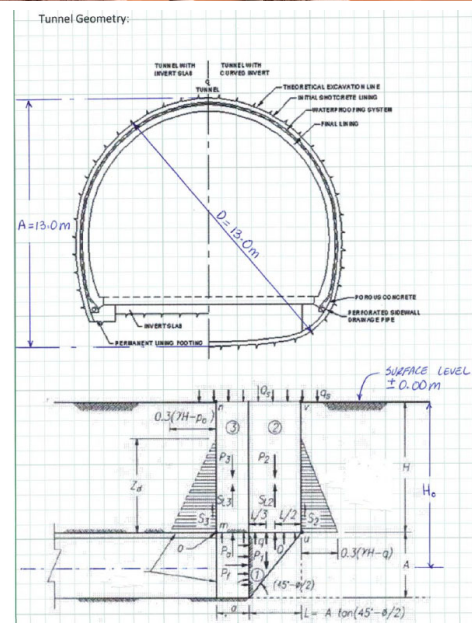

3.1 Geotechnical Engineering

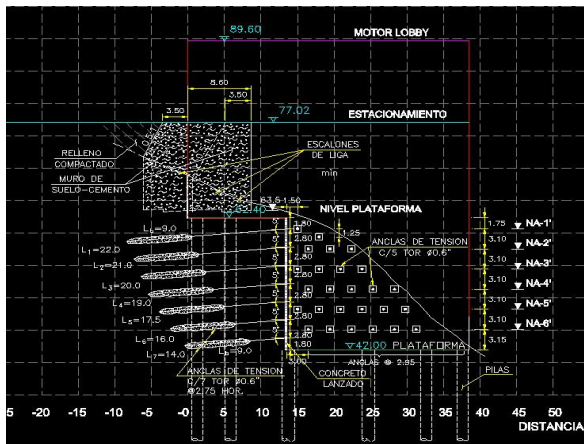

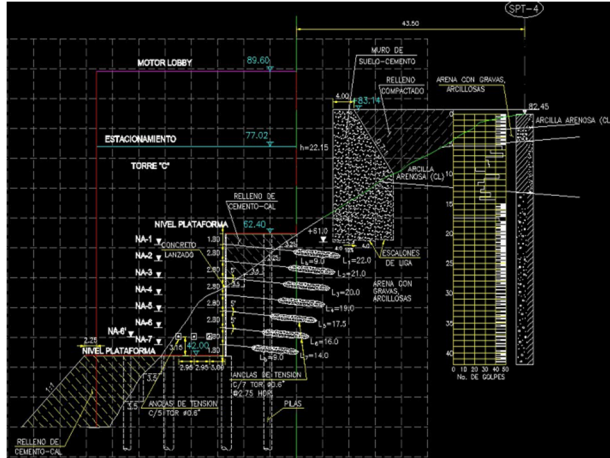

Design and Evaluation

- Deep and Shallow Foundations
- Earth Retention Systems
- Slope Stability
- Excavations
- Support of Litigation
- Tunneling and Underground

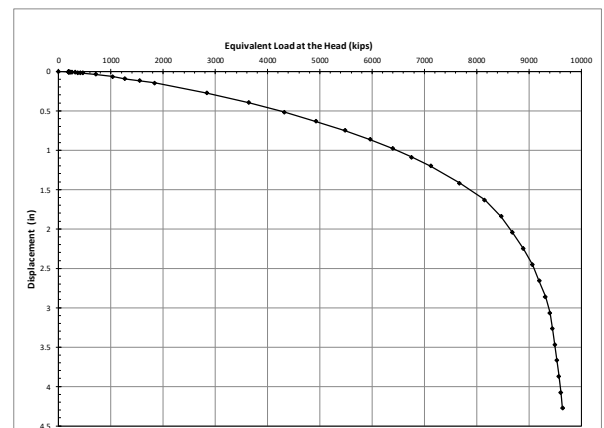

Value Engineering

- Foundation Optimization
- Alternative Technical Concepts
- Load Test Program Design
- Existing Foundation Assessment

Specialty Contractor Support

- Planning, Implementation, Data Review, and Data Analysis
 - Full-Scale Load Testing
 - Non-Destructive Testing
- Foundation Remediation
- Differential Settlement Remediation

3.2 Oil and Gas Industry

Drilling Engineering

- Wellbore integrity evaluation
- Oil and gas wellbore design
- Oil and gas well testing analysis

Wellbore Completion and Stimulation

- Hydraulic fracturing analysis
- Fracturing diagnostic testing analysis
- Matrix Acidizing and Acid Fracturing

Production Optimization and Flow Assurance

- Asphaltene, Wax and Gas Hydrate Formation, Deposition and Remediation
- Multiphase Flow Modeling and Production System Simulation
- Sand Production Control, Scale Formation and Corrosion Inhibition
- Artificial Lift, Design, Simulation and Operation
- Water Shutoff Operation, Analysis and Design
- Produced Water Management
- Heavy Oil Upgrading
- Real Time Measurements, Cloud Computing and Big Data Analysis
- EOR, Surfactant and Polymer Flooding

4. PROJECTS

RBM has been part of more than 145 design, evaluations, and consulting projects with major focus on industrial, commercial, transportation, and Oil & Gas projects in the United States, Mexico, Central and South America. With a diverse background, and strong communication and language skills, RBM consultants can effectively communicate with our clients, identify project needs, and deliver safe and efficient solutions. A full list of projects including details regarding RBM's role is presented in Attachment A.

United States

Mexico

Central and South America

5. CONSULTING TEAM

Rozbeh "Roz" B. Moghaddam, P.E., Ph.D., M.B.A
President

Rozbeh B. Moghaddam is the President of RBM Consulting Group, Inc. His research and more than 15 years of professional experience have included a significant focus on design and construction of underground structures, earth retention systems, and deep foundations in soft clays. As a geotechnical practitioner, Dr. Moghaddam has participated in major projects in the United States, Mexico, Central and South America, and Europe. He spent a significant part of his professional career designing foundations, earth retention systems, and tunnel sections in Mexico City's complex soils. Dr. Moghaddam received his Ph.D. degree in Civil Engineering from Texas Tech University, an M.B.A. from Eastern New Mexico University, and a Professional Degree in Civil Engineering from the Instituto Politecnico Nacional in Mexico City, Mexico. He is actively engaged in various industry technical committees and is a member of the International Association of Foundation Drilling (ADSC), Deep Foundation Institute (DFI), and American Society of Civil Engineers (ASCE). He has authored more than 30 technical publications and has lectured at numerous short courses, universities, and seminars.

Tracy Brettmann, P.E., MSE, D.GE
Executive Consultant - Geotechnical

Tracy Brettmann is a Senior Consultant at RBM Consulting Group, Inc. and the Executive Vice President of A.H. Beck Foundation Company in their Houston, Texas office. At RBM, Mr. Brettmann provides expert consulting on Deep Foundations related issues. At A.H. Beck, he is directly responsible for business development and overseeing the engineering operations for its specialty deep foundation, ground improvement, energy pile, and earth retention projects. He received his BSCE degree from the University of Nebraska-Lincoln and his Master's degree in Geotechnical Engineering from the University of Texas at Austin. He has authored over 30 technical papers and numerous magazine articles. Mr. Brettmann is a member of the Academy of Geo-Professionals (AGP), Geo-Institute of ASCE (ASCE/GI), International Society for Soil Mechanics and Geotechnical Engineering (ISSMGE), Deep Foundations Institute (DFI), The International Association of Foundation Drilling (ADSC). Mr. Brettmann is a past president of the Deep Foundations Institute and is a former chair of its Augered Cast-in-Place (ACIP) Pile committee. He currently serves as the chair of the DFI Educational Trust board.

Vahid Taghikhani, Ph.D.
Executive Consultant - Oil & Gas

Dr. Vahid Taghikhani is an Executive Consultant at RBM Consulting Group, Inc. and an Adjunct Professor in the Department of Chemical and Biomolecular Engineering at Rice University. He also serves as a Senior Lecturer in the Mechanical Engineering-Subsea Engineering Program at the University of Houston. Dr. Taghikhani is actively collaborating in research with the Electrical and Computer Engineering Department at Rice University and the University of California at Los Angeles, UCLA as well as the Center for Hydrate Research at Colorado School of Mines. Prior to his collaboration with RBM, Dr. Taghikhani worked as independent consultant providing expert consulting services to several industry leaders including the Texas OilTech Laboratories. He holds Ph.D., M.Sc. and B.Sc. all majoring in Chemical Engineering, and was recognized as the youngest distinguished Professor in Chemical Engineering by the IACHE in 2008. He was awarded the IDB merit scholarship in Research and Technology in 2007 by IDB Bank and several ESRV research awards. He is a Young Entrepreneur Awardee by APChEN, Association of Polymer and Chemical Engineers. He has authored over 250 peer-reviewed technical publications and has lectured at numerous universities and research centers around the world. He is an executive member of the American Institute of Chemical Engineering (AIChE), the World

Chemical Engineering Council (WCEC), and the Asian-Pacific Confederation on Chemical Engineering (APCChE).

Antonio Marinucci, P.E., Ph.D., M.B.A
Senior Consultant - Geotechnical

Dr. Marinucci is a Senior Consultant at RBM Consulting Group, Inc., in addition to the Managing Director at V2C Strategists LLC and President at Advanced Foundation Solutions, LLC. He also serves as a research professor and adjunct lecturer at the Tandon School of Engineering at New York University (NYU). He has 25 years of progressive experience in the civil design-construction industry on public and private projects involving earth retention, deep foundation, underpinning, and ground modification systems. He is a registered professional engineer in Pennsylvania, an instructor for the National Highway Institute (NHI), and is an active member of numerous professional organizations, technical committees, and various practical research efforts. He received a Ph.D. degree in Civil Engineering (Geotechnical emphasis) from the University of Texas at Austin, an MBA degree from the University of Rhode Island, and a MSCE degree from Northeastern University. Dr. Marinucci has authored or coauthored more than 45 peer-reviewed technical publications, and has lectured at numerous short courses, seminars, universities, and conferences in North/Central/South America, Europe, and Asia.

Hossein Emadi, Ph.D., P.E.
Senior Consultant - Oil & Gas

Dr. Hossein Emadi is a faculty member of Bob L. Department of Petroleum Engineering at Texas Tech University. His academic research and over a decade of professional experience have included a significant focus on wellbore stability for unconventional reservoirs, rock mechanics, artificial lift, and oil and gas well cement in shale basins. Currently, Dr. Emadi is serving as the lead Principal Investigator of the oil and gas well cement consortium at the Texas Tech University. Prior to joining Texas Tech as a faculty, Dr. Emadi worked as a drilling engineer and well site drilling engineer within the United States and the Middle East. Dr. Emadi received his Ph.D. in Petroleum Engineering from Texas Tech University. He serves as the faculty advisor for Texas Tech University American Rock Mechanics Association (TTU-ARMA). He is a member of the Society of Petroleum Engineers (SPE) and the National Society of Professional Engineers. He has authored more than 40 technical publications.

Marketing and Business Development

Abbigail Schafer

Abigail Schafer is the Marketing and Business Development Leader at RBM Consulting Group, Inc. She is the owner of ABI-G, LLC specializing in professional marketing services and business consulting. She's a graduate of Kent State University with a BA in Managerial Marketing. Her expertise includes small businesses growth focused on brand recognition, the use of analytics in strengthening online presence, and direct marketing improvements through content and demographic strategies. Abigail is a geek at heart and her technical skills extend from Adobe products to 3D printing and design. She has spent the last three years immersed in the field of geotechnical engineering promoting research, advancements, and improvements in the deep foundations industry.

For a full resume of each member of RBM's team please Attachment B, or visit our website at www.rbmcgroup.com.

ATTACHMENT B

ROZBEH B. MOGHADDAM, P.E., PH.D.

Education

Doctor of Philosophy (Ph.D.), Civil Engineering (Geotechnical), Texas Tech University	2016
Master of Business Administration (MBA), Eastern New Mexico University	2011
BSCE and MSCE, Instituto Politecnico Nacional, Mexico City, Mexico	2003

Professional License

Licensed Professional Engineer, Texas, Civil # 119046

Licensed Professional Engineer, New Mexico, Civil # 26118

Experience

2019- Present President	RBM Consulting Group, Inc. Consulting Company	San Antonio, TX
2016-2019 Senior Engineer	GRL Engineers, Inc. Deep Foundation Testing Company	Cleveland, OH
2012-2016 Research Assistant	Texas Tech University	Lubbock, TX
2005-2012 Senior Engineer	YZMO Geotecnia S.C. Geotechnical Consulting and Construction	Mexico City, Mexico
2002-2005 Staff Engineer	Bureau Veritas North America Specialty Consulting Company	Miami, FL

Professional Affiliations

- The International Association of Foundation Drilling (ADSC)
- Deep Foundations Institute (DFI)
- American Society of Civil Engineers (ASCE)
- International Society for Soil Mechanics and Geotechnical Engineering (ISSMGE)

Seminar and Short Courses

Foundation Engineering Course

Ohio State University

Speaker on Introduction to Wave Mechanics and Pile Driving, March 2019, Columbus, OH

Foundation Engineering Course

University of Wisconsin-Madison

Speaker on Drilled Shaft and ACIP Pile Design and Geothermal Foundations January 2018, Madison, WI

Seminar and Short Courses (Continued)

Short Course

Fundamentals Concepts of Allowable Stress Design (ASD) and Load and Resistance Factor Design (LRFD), Cleveland, OH

ASCE Geo Institute Webinar

Speaker on Deep Foundations, July 2018, Cleveland, OH

ASCE Geo Institute Webinar

Speaker on Diaphragm Walls, July 2017, Cleveland, OH

Guest Lecturer

Texas Tech University

Speaker on Retaining Structures, April 2015, Lubbock, TX

Guest Speaker

Texas Tech University

Speaker on the Art of Communication, July 2015, Lubbock, TX

Guest Lecturer

Texas Tech University

Speaker on Tunneling, November 2013, Lubbock, TX

Guest Speaker

Eastern New Mexico University

Iran, a World Beyond Known, October 2010, Lubbock, TX

Experience

2019-Present	RBM Consulting Group, Inc.	San Antonio, TX
Senior Consultant		
Geotechnical Consulting Company		
2014-Present	A.H. Beck Foundation Co.	Houston, TX
Executive Vice President		
Industry Leading Deep Foundation Specialty Contractor		
1996-2013	Berkel & Company Contractors	Richmond, TX
Vice President/Regional Manager		
Deep Foundation Contractor Specializing in ACIP Piles		
1989–1996	Fugro-McClelland Consultants	Houston, TX
Project Manager		
International Geotechnical Engineering Consulting Firm		

Education

1988–1989	University of Texas at Austin	Austin, TX
<ul style="list-style-type: none"> ▪ Master of Science in Engineering ▪ Geotechnical Engineering Graduate Program 		
1983–1987	University of Nebraska-Lincoln	Lincoln, NE
<ul style="list-style-type: none"> ▪ Bachelor of Science in Civil Engineering ▪ Chi Epsilon National Civil Engineering Honor Society 		

Professional Registrations

Professional Engineer – State of Texas (1992)
Professional Engineer, Civil Engineering – State of Louisiana (1994)

Professional Affiliations

Diplomate, Geotechnical Engineering – Academy of Geo-Professionals
Member – American Society of Civil Engineers
Member – Geo-Institute of ASCE
Member – International Society for Soil Mechanics and Geotechnical Engineering
Member – Deep Foundations Institute
Current: Chairman - Educational Trust Board
President (2005-2006)
Vice President (2003-2004)
Member of the Board of Trustees (2001-2009)
Trustee Liaison to the Augered Cast-In-Place Pile Committee (2001-04, 2008-09)
Chairman – Augered Cast-In-Place Pile Committee (1998-2000)
Member – ADSC – The International Association of Foundation Drilling

Deep Foundations Institute, October 1998, Seattle, WA

“Case History: Use of Rock-Socketed Auger Pressure Grouted Piles in Fort Worth, Texas” (Co-Author)
Proceedings of the Texas Section Spring 1999 Meeting
American Society of Civil Engineers-Texas Section, April 1999, Longview, TX

“Self Assessment of Geotechnical Engineering Practice in Houston” (Co-Author)
Geo-Houston '99 White Paper
University of Houston, March 1999, Houston, TX

“Case History: Estimating Ground Vibrations Caused by Pile Driving” (Co-Author)
Proceedings of the 24th Annual Meeting of the Deep Foundations Institute
Deep Foundations Institute, October 1999, Dearborn, MI

**Technical
Papers and
Articles**
(continued)

“New Technologies for Quality Control of Augered Cast-In-Place Piles”
(Sole Author)
Proceedings of the Augered Cast-In-Place Piles Specialty Seminar
Deep Foundations Institute, May 2000, St. Louis, MO

“Old and New Quality Control Options for Augered Cast-In-Place Piles”
(Sole Author)
*New Technological and Design Developments in Deep Foundations (Geotechnical
Special Publication No. 100)*
Proceedings of the Geo-Denver 2000 Conference
American Society of Civil Engineers, August 2000, Denver, CO

“Constructibility of Augered Cast-in-Place Piles” (Sole Author)
Feature Article in *Geo-Strata Magazine*
Geo Institute, ASCE, July 2003

“Monitoring of Drilling Resistance for Augered Cast-in-Place Piles” (Sole Author)
Proceedings from the Michael W. O'Neill Auger Cast-in-Place Pile Sessions
83rd Annual Transportation Research Board Meeting, January 2004,
Washington, DC (FHWA Publication)

“New Trends in Auger Pressure Grouted Piles” (Sole Author)
Proceedings of the CIGMAT 2004 Conference
University of Houston, March 2004, Houston, TX

“Evaluation of Grout Strength Gain within Augered Cast-in-Place Piles using Concrete
Maturity Meter” (Co-Author)
Proceedings of the Texas Section Spring 2004 Meeting
Winner of Best of Session Award
American Society of Civil Engineers – Texas Section, April 2004, South Padre Island, TX

Invited Paper: “Advances in Auger Pressure Grouted Piles: Design, Construction and
Testing” (Co-Author)
*Proceedings of Geo-Frontiers Conference and Advances in Designing and Testing Deep
Foundations (Geotechnical Special Publication No. 129)*
Geo Institute, ASCE, January 2005, Austin, TX

“Load Displacement Behavior of ACIP Piles in Cohesive Soils” (Co-Author)
*Proceedings of the 2009 International Foundation Congress and Contemporary Topics
in Deep Foundations (Geotechnical Special Publication No. 185)*
Geo Institute, ASCE, March 2009, Orlando, FL

“Behavior of ACIP Piles in Cohesive Soils” (Co-Author)
Proceedings of the Texas Section Fall 2009 Meeting
Winner of Best of Session Award
American Society of Civil Engineers – Texas Section, October 2009, Houston, TX

“Thermal Conductivity Analysis of Geothermal Energy Piles” (Co-Author)
Proceedings of the Geotechnical Challenges in Urban Regeneration Conference
Deep Foundations Institute and European Federation of Foundation Contractors
May 2010, London, England

**Technical
Papers and
Articles**
(continued)

“Thermal Conductivity Evaluation of a Pile Group Using Geothermal Energy Piles”
(Co-Author) *Proceedings of the Geo-Frontiers 2011 Conference*
Geo-Institute of ASCE,
March 2011, Dallas, Texas

“Thermal Conductivity Testing of Energy Piles: Field Testing and Numerical Modeling”
(Co-Author) *Proceedings of the GeoCongress 2012 Conference*
Geo-Institute of ASCE
March 2012, Oakland, CA

Industry Guideline: *Guideline for the Interpretation of Nondestructive Integrity Testing of Augered Cast-in-Place and Drilled Displacement Piles* (Principal Author)
Publication of the Deep Foundations Institute, 2012, Hawthorne, NJ

“Thermal Conductivity Testing of Energy Piles: Field Testing and Numerical Modeling”
(Co-Author) *Proceedings of the GeoCongress 2012*, Geo-Institute of ASCE, March 2012, Oakland, CA

“Assessing the Applicability of Thermal Response Testing to Energy Piles” (Co-Author)
Proceedings of the International Conference on Pilings and Deep Foundations
Deep Foundations Institute and European Federation of Foundation Contractors
May 2014, Stockholm, Sweden

“The Thermal Behavior of Three Different Auger Pressure Grouted Piles Used as Heat Exchangers” (Co-Author)
Geotechnical and Geological Engineering Journal, May 2014
Springer International Publishing

“Thermo-Mechanical Behavior of Energy Piles: Full-Scale Field Test Verification”
(Co-Author)
Proceedings of the 39th Annual Conference of the Deep Foundations Institute
Deep Foundations Institute
October 2014, Atlanta, GA

“Full Scale Field Testing of Energy Piles” (Co-Author)
Proceedings of the IFCEE 2015 Conference (Geotechnical Special Publication No. 256)
Geo-Institute of ASCE
March 2015, San Antonio, TX

“Innovative Ground Improvement Solutions for ASTs on Soft Soils” (Sole Author)
Feature Article in *Tank Storage Magazine*
March-April 2015

“Group Thermal Response Testing for Energy Piles” (Co-Author)
Proceedings of the European Conference on Soil Mechanics and Geotechnical Engineering XVI, ECSMGE
September 2015, Edinburgh, Scotland

“Comparison of Load Test Results Between ACIP Piles Installed in Sand in Pre-Drilled Holes Versus Conventional Installation” (Co-Author)
Proceedings of the 40th Annual Conference of the Deep Foundations Institute
Deep Foundations Institute
October 2015, Oakland, CA

“A Low Headroom Solution” (Sole Author)
Feature Article in *Deep Foundations Magazine*
Deep Foundations Institute, November-December 2015

**Technical
Papers and
Articles**
(continued)

"Full-Scale Test Study of Skin Friction Development in Sand for ACIP Piles under Compressive and Tensile Loading Conditions for Bridge Support" (Co-Author)
Proceedings of the IFCEE 2018 Conference (Geotechnical Special Publication No. 294)
Geo-Institute of ASCE
March 2018, Orlando, FL

"Innovative Pile Extraction Technique of CFA Piles for the New Harbor Bridge Project"
Proceedings of the International Conference on Pilings and Deep Foundations
Deep Foundations Institute and European Federation of Foundation Contractors
June 2018, Rome, Italy

"Extracted ACIP Piles for the New Harbor Bridge Project" (Sole Author)
Feature Article in *Deep Foundations Magazine*
Deep Foundations Institute, September-October 2018

"Innovative Riverbank Erosion Control Retaining Wall for the Brazos River" (Co-Author)
Proceedings of the 43th Annual Conference of the Deep Foundations Institute
Deep Foundations Institute
October 2018, Anaheim, CA

"Drilled Shafts Providing the Solid Support Needed for the Houston Ship Channel Bridge"
(Sole Author)
Feature Article in *Foundation Drilling Magazine*
ADSC, February-March 2019

**Seminar and
Short Course
Presentations**

Installation of Augered Cast-In-Place Piles Specialty Seminar on Augered Cast-In-Place Piles
Deep Foundations Institute, June 1997, Orlando, FL

Installation of Augered Cast-In-Place Piles
Specialty Seminar on Augered Cast-In-Place Piles
Deep Foundations Institute, November 1998, Houston, TX

**Installation of Augered Cast-In-Place Piles and
New Technologies for Quality Control of Augered Cast-In-Place Piles**
Specialty Seminar on Augered Cast-In-Place Piles
Deep Foundations Institute, May 2000, St. Louis, MO

New Technologies for Quality Control of Augered Cast-In-Place Piles
Seminar on the Quality Control of Deep Foundations
American Society of Civil Engineers-Cleveland Section, April 2001, Cleveland, OH

Installation of Augered Cast-In-Place Piles
Specialty Seminar on Augered Cast-In-Place Piles
Deep Foundations Institute, May 2001, Pittsburgh, PA

Augered Cast-In-Place Piles Short Course
One Day Short Course on Augered Cast-In-Place Piles
Geo-Institute, ASCE, February 2002, Orlando, FL

Installation of Augered Cast-In-Place Piles
Specialty Seminar on Augered Cast-In-Place Piles
Deep Foundations Institute, May 2002, San Francisco, CA

**Seminar and
Short Course
Presentations**
(continued)

Installation of Augered Cast-In-Place Piles

Specialty Seminar on Augered Cast-In-Place Piles
Deep Foundations Institute, May 2003, Atlanta, GA

Design, Installation and Quality Control for Auger Pressure Grouted (APG) Piles and Auger Pressure Grouted Displacement (APGD) Piles

University of Houston Continuing Education Short Course
Dept of Civil & Environmental Engineering, March 2004, Houston, TX

Installation of Augered Cast-In-Place Piles

Specialty Seminar on Augered Cast-In-Place Piles
Deep Foundations Institute, May 2004, New York City, NY

Case Histories of Auger Pressure Grouted (APG) Piles

University of Houston Continuing Education Short Course
Dept of Civil & Environmental Engineering, November 2004, Houston, TX

Design, Installation and Quality Control for Auger Pressure Grouted (APG) Piles and Auger Pressure Grouted Displacement (APGD) Piles

13th Annual Building Professional Institute
The University of Texas at Arlington, May 2005, Arlington, TX

Augered Cast-in-Place (ACIP) Piles: Design, Construction, Load Test and Case Studies

Geo-Denver Conference Short Course
Geo Institute of ASCE, February 2007, Denver, CO

Design and Construction of ACIP Piles for Foundations and Retention Systems

University of Houston Continuing Education Short Course
Dept of Civil & Environmental Engineering, January 2008, Houston, TX

Automated Monitoring of CFA Piles

33rd Southwest Geotechnical Engineers Conference
Texas Department of Transportation, April 2008, Corpus Christi, TX

History and Installation of ACIP Piles

SuperPile 08 Specialty Seminar
Deep Foundations Institute, April 2008, Philadelphia, PA

Design and Construction of ACIP Piles for Foundations and Retention Systems

University of Houston Continuing Education Short Course
Dept of Civil & Environmental Engineering, February 2009, Houston, TX

Augered Cast-In-Place Piles Short Course

One Day Short Course on Augered Cast-In-Place Piles
Geo-Institute, ASCE, March 2009, Orlando, FL

Sustainability Seminar

One Day Short Course on Sustainability Issues with Deep Foundations
Speaker on Energy Piles in the US
Deep Foundations Institute, October 2010, Los Angeles, CA

New Developments in Auger Pressure Grouted (APG) Piles

University of Houston Continuing Education Short Course
Dept of Civil & Environmental Engineering, February 2011, Houston, TX

Augered Cast-In-Place Piles Short Course

One Day Short Course on Augered Cast-In-Place Piles
Geo-Institute, ASCE, March 2011, Dallas, TX

**Seminar and
Short Course
Presentations**
(continued)

Geothermal Energy Pile Systems Seminar at the International Bridge Conference
Speaker on Thermal Conductivity Evaluation of a Pile Group Using Geothermal Energy Piles
Sponsored by the Deep Foundations Institute
June 2011, Pittsburgh, PA

Augered Cast-In-Place Piles Short Course
One Day Short Course on Augered Cast-In-Place Piles
Deep Foundations Institute, October 2012, Houston, TX

Geo-San Antonio 2014 Seminar
"Geotechnical Topics in the Energy Sector"
Speaker on Thermo-Mechanical Load Testing of Energy Piles in Texas
Geo-Institute San Antonio Chapter/The University of Texas at San Antonio
March 2014, San Antonio, TX

Foundation Engineering and Design Short Course
University of Wisconsin-Madison
Speaker on Drilled Shaft Design and Geothermal Foundations
January 2016, Madison, WI

Texas Civil Engineering Conference
Texas Section of the Geo-Institute of ASCE
Speaker on Energy Piles and Thermal Integrity Profiling (2 presentations)
September 2016, San Marcos, TX

Foundation Engineering and Design Short Course
University of Wisconsin-Madison
Speaker on Drilled Shaft Design and Geothermal Foundations
January 2017, Madison, WI

Foundation Engineering and Design Short Course
University of Wisconsin-Madison
Speaker on Drilled Shaft and ACIP Pile Design and Geothermal Foundations
January 2018, Madison, WI

Energy Foundations Seminar
Sponsored by the Deep Foundations Institute
University of Illinois - Chicago
Speaker on Thermal Conductivity Analyses of Energy Piles
September 2018, Chicago, IL

Louisiana Civil Engineering Conference
Invited Speaker on Best Practices for Design and Installation of ACIP Piles in Louisiana
September 2018, Kenner, LA

Foundation Engineering and Design Short Course
University of Wisconsin-Madison
Speaker on Drilled Shaft and ACIP Pile Design and Geothermal Foundations
February 2019, Orlando, FL

Education

Ph.D. in Chemical Engineering, McGill/AKU University	1999
M.Sc. in Chemical Engineering, Amirkabir University of Technology	1996
B.Sc. in Petrochemical Engineering, Amirkabir University of Technology	1994

Experience

Department of Chemical and Biomolecular Engineering, Rice University

Adjunct Professor and Lecturer

Sep 2014 – Present

Instructor

Sep 2014 – May 2015

- **Research (Production Optimization, Flow Assurance, Multiphase Flow)**

Chaired and co-chaired 18 doctoral students and 65 master's students

Served as committee member for 35 doctoral and 95 master's students

- **Teaching**

Course Name	Course Level	Semester
Multiphase Flow	Undergraduate	Fall
Advanced Flow Assurance	Graduate	Spring
Thermodynamics	Undergraduate	Fall/Spring

Microsilicon Startup

May 2016 – May 2018

- Engineered drilling program for horizontal wells in the Permian Basin

Professor, Chemical and Petroleum Engineering Department, Sharif University of Technology

Sept 2000 – Aug 2019

Teaching Assistant

Aug 2011 – Aug 2014

- Taught advanced drilling and production courses to more than 1,000 senior students

PVT Project Manager, TexoPed Ltd.

Feb 2017 – Jun 2019

Secretary-General, IFPE

Jun 2018 – Dec 2019

Professional Affiliations

- Society of Professional Engineers (SPE)
- World Chemical Engineering Council (WCEC)
- American Institute of Chemical Engineering (AIChE)
- Asia Pacific Confederation on Chemical Engineering (APCChE)

Awards

- 2016 Technical Editorial Award, Society of Petroleum Engineers, SPE, 2016.
- Among the top 20 most prolific faculty members in 2009 at Sharif University of Technology.
- 2009 Young Distinguished Professor, Elected by IACHe.
- 2009 Youngest Full Professor at Sharif University of Technology.
- Visiting Professor, Center for Hydrate Research, Department of Chemical Engineering, Colorado School of Mines, Golden, Colorado, USA.
- Pre-doctoral Fellowship, Department of Chemical Engineering, McGill University, Montreal, Quebec, Canada.
- Exploratory Scientific Research Visit (ESRV) granted by the British Council, 2004.
- Exploratory Scientific Research Visit (ESRV) granted by the British Council, 2005.
- Exploratory Scientific Research Visit (ESRV) granted by the British Council, 2006.
- 2008 Merit Scholarship Award, IDB, Bank Merit Scholarship Award.

Publications

Education

Ph.D. in Petroleum Engineering, Texas Tech University	2014
M.Sc. in Drilling Engineering, Petroleum University of Technology	2006
B.Sc. in Petroleum Engineering, Petroleum University of Technology	2003

Professional License

Licensed Professional Engineer, Texas, Petroleum # 128776

Experience

Bob L. Herd Department of Petroleum Engineering, Texas Tech University

George F. Watford Assistant Professor

Sep 2015 – Present

Instructor

Sep 2014 – May 2015

- **Research (Drilling, Completion, and Production)**

Chaired and co-chaired 10 doctoral students and two master's students

Served as committee member for two doctoral and eight master's students

- **Teaching**

Course Name	Course Level	Semester
Drilling II	Undergraduate	Fall 2015, 2016, and 2017
Horizontal Well Technology	Graduate	Fall 2014, Spring 2016, 2017, and 2018
Well Control Simulator	Undergraduate	Spring 2015

Drilling Engineer, Apache Corporation

May 2015 – Jul 2015

- Engineered drilling program for horizontal wells in the Permian Basin

Research Assistant, Petroleum Engineering Department, Texas Tech University

Aug 2011 – Aug 2014

- Conducted experimental research on effects of swelling and temperature on wellbore stability in Eagle Ford Shale reservoir
- Designed and Built a High-Pressure High-Temperature (HPHT) experimental setup to simulate downhole condition

Teaching Assistant

Aug 2011 – Aug 2014

- Taught advanced drilling and production courses to more than 1,000 senior students

Drilling & Wellsite Drilling Engineer, Petropars Ltd.

Feb 2008 – Jun 2011

- Managed offshore drilling operational problems such as curing lost circulation and killing wells
- Pioneered a procedure to analyze bit performance for optimal drilling, resulting in 20% reduction in drilling time
- Engineered casing string, wellbore trajectories, and drilling program for 12 offshore gas well

Drilling Supervisor Assistant, NIOC

Jun 2006 – Dec 2007

- Supervised and conducted onshore drilling and completion operations in oil and gas fields such as dry tests, DST, cementing, running tubing string, setting packer, and perforating

Researcher, Research Institute of Petroleum Industry

Jun 2005 – Jan 2006

- Conducted experimental research on effects of grain size distribution on cement performance

Professional Affiliations

- National Society of Professional Engineers (NSPE)
- Texas Society of Professional Engineers
- Society of Petroleum Engineers (SPE)
- American Association of Drilling Engineers (AADE)
- American Rock Mechanics Association (ARMA)

Awards

- George F. Watford Professorship recipient

Education

Doctor of Philosophy, May 2010

University of Texas at Austin, Austin, Texas

Specialization in Geotechnical Engineering

Academic Award: *Thrust 2000–Robert L. Parker, Sr. Endowed Graduate Fellowship in Engineering*

Project: *NEES Grand Challenge: Seismic Risk Mitigation for Port Systems*

Dissertation: *Effect of Prefabricated Vertical Drains on Pore Water Pressure Generation and Dissipation in Liquefiable Sand*

Master of Business Administration, May 2005

University of Rhode Island, Kingston, Rhode Island (completed)

Northeastern University, Boston, Massachusetts (partial)

Academic Awards: *Beta Gamma Sigma Honor Society; Research Assistantship (Business); Teaching Assistantship (Civil/Ocean Engineering)*

Project: *The Liquidity of Companies Listed on Both NYSE and NASDAQ*

Project: *Why Accounting Firms Severed Relations / Employment with their Clients*

Project: *Field Study of Composite Piles in the Marine Environment*

Project: *Vibratory Pile Compaction*

Master of Science in Civil Engineering, Sept 2004

Northeastern University, Boston, Massachusetts

Specialization in Geotechnical Engineering

Bachelor of Science in Civil Engineering, May 1995

University of Rhode Island, Kingston, Rhode Island

Academic Awards: *Chi Epsilon National Honor Society; Phi Kappa Phi National Honor Society.*

President's Academic Excellence Award; Tau Beta Pi National Honor Society

Experience

Senior Consultant, RBM Consulting Group, Inc., San Antonio, TX (Oct 2019-)

RBM Consulting Group, Inc. provides expert consulting in geotechnical engineering as well as value engineering (VE) to aid domestic and international clients in solving their complex challenges. RBM leverages geotechnical engineering, construction expertise, and skilled management with high-level client support to present a safe, constructible, and efficient solution to geotechnical and foundation engineering challenges.

Managing Director, Advanced Foundation Solutions, LLC, New York, NY (Oct 2019-)

Advanced Foundation Solutions, LLC provides innovative products, such as the Expander Body and the Smart Cell, as well as progressive engineering and technical services to the deep foundations geo- construction industry.

Managing Director, V2C Strategists, LLC, New York, NY (Jan 2017 -)

Independent Consultant, Brooklyn, NY (May 2013 - Jan 2014; Sept 2015 - Jan 2017)

V2C Strategists LLC is a multifaceted consultancy that provides services and practical solutions to address engineering, business, risk, and technology concerns facing its clients in engineering and construction, transportation infrastructure, and capital development sectors. Dr. Marinucci specializes in geo-structural design and construction, management consulting, risk management, and contracting/project delivery.

Executive Editor, Deep Foundations Institute; Hawthorne, NJ (Nov 2016 – Dec 2019)

Dr. Marinucci's primary role is to direct the editorial content of the bi-monthly *DFI Magazine*, with the express goal of enhancing DFI's stature by providing pertinent, timely, and accurate information about the deep foundations industry.

Research / Adjunct Professor, Tandon School of Engineering at NYU; Brooklyn, NY (Jan 2016-) Specific focus areas of interest include ground modification/improvement technologies, deep foundation systems, contracting/project delivery, risk management, micropiles, ground anchors, and seismic response and mitigation. Dr. Marinucci developed and delivered graduate level civil engineering courses in ground modification methods and applications, and future efforts include developing new courses in project delivery methods, project-based risk management, and alternative deep foundation systems.

Director of Sales / Research, American Equip. & Fabricating, East Providence, RI (Jan 2014 - Aug 2015)

Dr. Marinucci analyzed market activities to develop corporate sales strategy, and developed the corporate sales and marketing plan to increase revenue, industry presence, and market share for the sale/rental of foundation equipment in the eastern U.S. Dr. Marinucci analyzed sales and rental activities from a costing perspective with respect to cash flow, risk exposure, trends, and local / regional differences. He also was the in-house technical resource and performed constructability and feasibility reviews.

Director of Operations, ADSC: The Int'l Assoc. of Found'n Drilling, Irving, TX (Dec 2009 - May 2013)

Dr. Marinucci was the in-house technical resource and was responsible for research & development, policy writing/adherence, personnel supervision, budget preparation, and development of education programs. He was technical director for and liaison to eleven regional / international chapters, FHWA, state DOTs, to ADSC and Industry technical committees, and to the academic community. ADSC is a not-for-profit, 501(c)(6) organization.

Doctoral Researcher, University of Texas at Austin (Aug 2005 - May 2010)

Mr. Marinucci conducted his Doctoral studies and research under the guidance and direction of Professor Ellen M. Rathje in the Department of Geotechnical Engineering. The research evaluated the effect of prefabricated vertical drains on pore water pressure generation and dissipation in liquefiable sand.

Construction Manager, Schnabel Foundation Co., King of Prussia, PA (Feb 2000 - July 2002)

Mr. Marinucci designed, estimated/bid, and managed the construction activities for various drilled and driven deep foundation, micropile, anchored/braced earth retention, and underpinning systems for public and private Design-Bid and Design-Bid-Build projects in DE, NJ, NY, and PA.

Staff Engineer, Commonwealth Engineers & Consultants, Providence, RI (Nov 1997 - Feb 2000)

Mr. Marinucci designed and prepared engineering reports and cost estimates for various structural systems and bridges, drilled and driven deep foundations, and anchored/braced earth retention systems for public and private projects in Connecticut, Massachusetts, and Rhode Island.

Staff Engineer, Modern Continental Construction, Boston, MA (Aug 1995 - Nov 1997)

Mr. Marinucci worked on the Central Artery/Tunnel (CA/T) Project (C17A2), where he was involved with various construction activities: multi-column viaduct underpinning, slurry/diaphragm wall construction, project submittals, materials procurement, and quality control (QC). He was also involved with bid estimating, scheduling, planning/sequencing, and contractor design concepts for construction activities on multiple other CA/T projects.

PROFESSIONAL QUALIFICATIONS & AWARDS

Licensed Professional Engineer - Commonwealth of Pennsylvania

National Highway Institute (NHI) Instructor – *Drilled Shafts Design & Construction; Drilled Shaft Inspector; Earth Retaining Structures; Geosynthetics; Ground Modification Methods; Micropiles; Soil Nail Walls*

Recipient of 2018 DFI President's Award

PROFESSIONAL SOCIETIES *(current)*

Member, ADSC: The International Assoc. of Foundation Drilling (ADSC)

Member, American Society of Civil Engineers, Geo-Institute (ASCE/GI)

Member, Deep Foundations Institute (DFI)

Member, Design-Build Institute of America (DBIA)

Member, Geotechnical Extreme Events Reconnaissance (GEER), sponsored by NSF

Member, International Society for Micropiles (ISM)

Member, International Society of Soil Mechanics & Geotechnical Engineering (ISSMGE)

Member, Project Management Institute (PMI)

Member, Transportation Research Board (TRB)

PROFESSIONAL COMMITTEES / TASK FORCES *(current)*

ASCE Geo-Institute Deep Foundations Committee (former Secretary)

ASCE Geo-Institute Soil Improvement Committee (former Secretary)

DFI/ADSC Micropile Committee

DFI Augered Cast-in-Place / Displacement Pile Committee

DFI Electric Power System Foundation Working Group

DFI-EFFC Working Group on Drilling Support Fluids for Bored Piles and Diaphragm Walls

DFI-EFFC Working Group on Tremie Placement of Concrete

DFI Ground Improvement Committee (former Secretary)

TRB AFS10: Earthworks Committee

TRB AFS30: Foundations of Bridges and Other Structures Committee

PROFESSIONAL AND TECHNICAL ACTIVITIES *(select)*

Co-Principal Investigator, Investigation of Development of Lateral Stresses during Installation of Drilled Displacement (DD) Piling project *(ongoing)*

Project Manager and Co-Principal Investigator, Phase I, FHWA *Evaluation and Guidance Development for Post-Grouted Drilled Shafts for Highways* project *(completed)*

Conference Chair and Proceedings co-editor, DFI 2016 Annual Conference, New York, NY

Chair, DFI-ADSC 2015 Micropile & Anchored Earth Retention Seminar, Saddle Brook, NJ

Tech. Program co-chair and Proceedings co-editor, DFI 2015 Annual Conference, Oakland, CA

Co-writer, ADSC-IAFD Specifications for the Construction of Secant and Tangent Pile Wall Systems using Drilled Shafts *(completed)*

Technical Program co-chair and Proceedings co-editor, DFI 2014 Annual Conference, Atlanta, GA

Editorial Board member, *Journal of the Deep Foundations Institute* *(current)*

Associate Editor and Technical Writer, ADSC *Foundation Drilling* magazine (2010-2013)

Technical Advisor, Static Capacity of Micropiles in R.I. Soils Project, Univ. of R.I. *(on hold)*

Peer Review Panel Member, Caltrans Deep Foundations Program (2012)

Co-Principal Investigator, Evaluation of Drilled Shafts utilizing High Strength Materials Project, Oregon State Univ. *(completed)*

Technical Advisor, TxDOT Axial Capacity of Drilled Shafts in Hard Clay and Limestone in Austin, Texas, Univ. of Texas at Austin *(completed)*

Technical Advisor, TxDOT Long-Term Performance of Secant Pile Drilled Shaft Retaining Walls, Univ. of Texas at Austin *(completed)*

Technical Advisor, TxDOT Drilled Shafts in MSE Walls, Univ. of Texas at Austin *(completed)*

Education

- Doctorate of Philosophy in Civil Engineering – **Computational Geomechanics** 2012 – 2015
- *Improved Culvert Load Rating through an Evaluation of the Influence of Cover Soil Depth, Demand Model Sophistication, and Live Load Attenuation Method*
 - Texas Tech University, College of Engineering
 - GPA: 4.000
- Master's of Science in Civil Engineering – **Structural / Geotechnical** 2007 – 2009
- *An Evaluation of Alternative Analysis Methods for Production Load Rating of Culverts*
 - Texas Tech University, College of Engineering
 - GPA: 4.000
- Bachelor's of Science in **Engineering Physics / Structures with Honors** 2003 – 2006
- Texas Tech University, College of Engineering
 - GPA: 3.974, Summa Cum Laude

Professional Experience

- Assistant Professor** 2016 – current
- Dept. of Civil and Environmental Engineering, School of Engineering
The Citadel, Charleston, SC, USA
- Senior Research Associate** 2016
- Center for Multidisciplinary Research in Transportation (TechMRT)
Texas Tech University (TTU), Lubbock, TX, USA
- Research Associate** TechMRT, TTU 2009 – 2015
- Research Aide** TechMRT, TTU 2007 – 2009
- Graduate Research Assistant** TechMRT, TTU 2006 – 2007

Research Interests

- *Classical-model, literature-driven, writing-intensive, holistic* undergraduate education through classroom, laboratory, and research activities
- The intersection of *geotechnical* engineering, *structural* engineering, and *technology-driven* data capture, storage, transfer, and application
- Production-oriented analysis and inspection of *in-service soil-structure systems* (culvert load rating, foundation and buried structure load testing, etc.)
- Reinforced concrete box culverts and other buried structures
- Mechanically stabilized earth (MSE) retaining walls
- *Object-oriented software* development (MS Visual Studio) and *relational database* (SQL Server) implementation

Teaching Experience

The Citadel

CIVL 103 Introduction to Civil Engineering

4 sections, 2 semester; 100% lecture

<u>Semester and Section</u>	<u>Effectiveness</u>	<u>Enrollment</u>
2018 Fall-02	4.7	20
2019 Fall-02	4.8	9
2019 Fall-02	4.8	17
2019 Fall-02	5.0	15
Average	4.83/5.0	61

CIVL 202 Statics

13 sections, 7 semesters; 100% lecture

<u>Semester and Section</u>	<u>Effectiveness</u>	<u>Enrollment</u>
2016 Fall-01	4.8	25
2016 Fall-03	4.6	21
2017 Spring-01	4.6	27
2017 Spring-03	4.7	27
2017 Fall-02	4.7	22
2017 Fall-04	4.8	22
2018 Spring-01	4.8	32
2018 Fall-02	4.9	22
2018 Fall-04	4.8	26
2019 Spring-01	4.5	26
2019 Spring-02	4.8	30
2019 Fall-01	4.9	24
2019 Fall-03	4.9	25
Average	4.75/5.0	329

CIVL 203 Dynamics

13 sections, 9 semesters; 100% lecture

<u>Semester and Section</u>	<u>Effectiveness</u>	<u>Enrollment</u>
2016 Fall-01	4.5	18
2017 Summer-91	4.7	24
2017 Fall-01	4.5	25
2017 Fall-02	4.6	19
2018 Spring-01	4.6	21
2018 Spring-02	4.5	23
2018 Summer-91	4.6	17
2018 Fall-01	4.7	24
2018 Fall-02	4.9	17
2019 Spring-02	4.8	27
2019 Spring-03	4.8	26
2019 Summer-81	4.9	13
2019 Fall-03	4.8	19
Average	4.68/5.0	273

CIVL 210 Computer Applications for Civil Engineers

1 section, 1 semester; 100% lecture

<u>Semester and Section</u>	<u>Effectiveness</u>	<u>Enrollment</u>
2019 Fall-03	4.8	19
Average	4.8/5.0	19

CIVL 307 Materials Lab

7 sections, 5 semesters; 20% lecture and 80% hands-on, guided learning

<u>Semester and Section</u>	<u>Effectiveness</u>	<u>Enrollment</u>
2016 Fall-01	4.7	13
2016 Fall-03	4.6	13
2017 Fall-02	4.5	18
2018 Spring-02	4.3	18
2018 Spring-04	4.3	16
2019 Spring-01	4.6	17
2019 Fall-01	4.6	16
Average	4.51/5.0	111

CIVL 410 Geotechnical Engineering II

2 sections, 1 semester; 100% lecture

<u>Semester and Section</u>	<u>Effectiveness</u>	<u>Enrollment</u>
2017 Spring-01	4.4	18
2017 Spring-81	4.7	24
Average	4.55/5.0	42

Texas Tech University

Guest Lecturer	CE3321	Introduction to Geotechnical Engineering	2008 – 2010
	CE3340	Principles of Structural Design	2007 – 2010

CE3121 Geotechnical Lab

18 sections, 9 semesters; 25% lecture and 75% hands-on, guided learning

<u>Semester and Section</u>	<u>Instructor Effectiveness</u>	<u>Enrollment</u>
2008 Fall-301	4.59	17
2008 Fall-302	4.69	16
2009 Spring-301	4.69	26
2009 Spring-303	4.56	32
2009 Fall-303	4.68	19
2009 Fall-304	4.42	19
2012 Fall-301	4.54	13
2012 Fall-303	4.75	16
2013 Spring-301	3.82	17
2013 Spring-303	4.56	16
2013 Fall-301	4.63	16
2013 Fall-303	4.65	17
2014 Spring-301	4.79	14
2014 Spring-304	4.75	12
2014 Fall-301	4.77	13
2014 Fall-302	4.60	14
2015 Spring-301	4.69	15
2015 Spring-304	5.00	15
Average	4.6/5.0	307

Awards and Honors

The American Society for Engineering Education, Southeast Section, New Teach Award	2020
The Citadel, New Faculty Member Excellence Award	2019
Southern Plains Transportation Center, Top Student Paper Honorable Mention	2015
Southern Plains Transportation Center, Top Ph.D. Dissertation Award	2015
Order of the Engineer ringed member	2006
Tau Beta Pi Engineering Honor Society member	2005
Honor Society of Phi Kappa Phi member	2005
Boy Scouts of America, Eagle Scout, Troop 437, Richardson, Texas	2002

- Lawson, W. D., **Wood, T. A.**, Newhouse, C. D., and Jayawickrama, P. W. (2010). *Evaluating Existing Culverts for Load Capacity Allowing for Soil Structure Interaction*. Report No.

Research Experience

Co-Principle Investigator: 7 projects, \$2.4 million (prorated \$462,000)

Load Rating TxDOT pre-1980 In-Service Culverts 7/15/2014 – 6/15/2016

Amount: \$1,097,227 (**\$175,566 as Co-PI**)

Sponsor: Texas Department of Transportation (TxDOT) Bridge Division

Contribution: Data management for 11,000 culvert structures, overseeing 60 undergraduate researchers, culvert load rating expertise, reporting

Snow and Ice Chemicals for Texas Roads: Modification 3, Field and Lab Testing

Amount: \$226,164 (**\$29,401 as Co-PI**) 8/31/2014 – 8/31/2015

Sponsor: TxDOT/Federal Highway Administration (FHWA)

Contribution: Field testing of deicing salts, design and execution

Reliability Based Deep Foundation Design Using Texas Cone Penetrometer (TCP) Test

Amount: \$399,845 (**\$99,961 as Co-PI**) 9/1/2012 – 8/31/2014

Sponsor: TxDOT/FHWA

Contribution: Data management and analysis of 75 deep foundation load tests, programing, reporting

Load Rating TxDOT Culvert Design Standards 6/1/2012 – 4/30/2013

Amount: \$180,449 (**\$45,112 as Co-PI**)

Sponsor: TxDOT/FHWA

Contribution: Data management, load rating 2000 culvert standard designs under a full range of cover soil depths, culvert load rating expertise, reporting

Software Development to Implement the TXDOT Culvert Rating Guide 6/1/2012 – 11/20/2012

Amount: \$74,288 (**\$18,572 as Co-PI**)

Sponsor: Sponsored by TxDOT/FHWA

Contribution: Development of CULVLR (TxDOT's multibarrel, reinforced concrete box culvert load rating program), culvert load rating expertise

Pullout Resistance of Mechanically Stabilized Earth Reinforcement in Backfills Used in Texas

Amount: \$393,374 (**\$78,675 as Co-PI**) 9/1/2009 – 8/31/2012

Sponsor: TxDOT/FHWA

Contribution: Large scale lab testing design, large-scale pullout testing of over 700 steel MSE reinforcements, data management and analysis, reporting

Perform Live Load Testing of Sandwich Panel System (SPS) Bridges in Wise County

Amount: \$29,366 (**\$14,683 as Co-PI**) 10/8/2009 – 8/31/2010

Sponsor: TxDOT/FHWA,

Contribution: Field testing execution, data acquisitionFull-time Researcher: 5 projects, \$1.4 million

Testing of Alternative Supporting Materials for Portable Roll-Up Signs Used for Maintenance Work Zones 9/1/2010 – 8/31/2013

Amount: \$508,663,

Sponsor: TxDOT/FHWA,

Contribution: Field testing design and evaluation of portable roll-up signs

Implementing the Ultra-High Pressure Water Cutter for Roadway Maintenance Applications

Amount: \$333,490

9/1/2010 – 8/31/2012

Sponsor: TxDOT/FHWA

Contribution: Field testing execution, gathering data on pavement roughness, reporting

MSE Pullout Testing for RECo HA Ladder and HA Strip Reinforcements 6/1/2011 – 8/31/2011

Amount: \$24,052

Sponsor: Reinforced Earth Company, Vienna, VA

Contribution: Large-scale lab testing execution, data analysis, reporting

Evaluating Existing Culverts for Load Capacity Allowing for Soil Structure Interaction

Amount: \$215,630

9/1/2007 – 8/31/2009

Sponsor: TxDOT/FHWA,

Contribution: Live load field testing design and execution, data analysis, numerical modeling, parametric analysis, report preparation

Design Procedures for MSE/Soil Nail Hybrid Wall Systems

9/1/2004 – 8/31/2008

Amount: \$386,157

Sponsor: TxDOT/FHWA,

Contribution: Field testing execution, data acquisition

Additional Proposals:

NCHRP 15-54: Proposed Modifications to AASHTO Culvert Load Rating Specifications

Selected but not awarded

Amount: \$500,000 (**\$100,000 as Co-PI**)

Sponsor: National Cooperative Highway Research Program (NCHRP)
